

REBLOC RB60_12_T3/W2

standard element

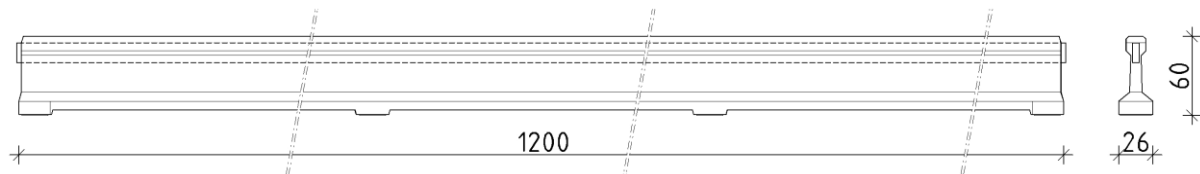

tested according to EN 1317-2

DATA SHEET

overview

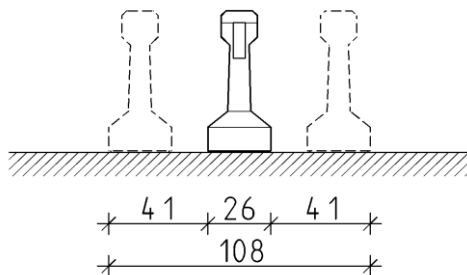

all dimensions in cm

containment level: T3 (covers T1-T2)
 working width: W2 (covers W3-W8)
 impact severity level/ASI: A

installation

single row (central reservation, verge)

technical data

weight/element: 2.200 kg
 minimum installation length: 120 m
 anchorage: not anchored
 concrete quality: C35/45, XC4
 coupling/steel parts: fully integrated, exposed parts hot-dip galvanized

system element combinations

special element RB60_4
 special element RB60_4T (terminal element 1:5)
 special element RB60_80_4 (transition element)
